WORK EXPERIENCE

Graduate Assistant, IT Applications, Hood College

Jan 2025 - Present

- Optimize stored procedures in Microsoft SQL Server for college-wide application systems improving query performance by 35%
- Automate backend tasks using scheduled jobs, streamlining data processing workflows

Software Engineer, UBA Solutions (Offshore: Monotype Imaging, USA)

Apr 2020 - Nov 2023

- Designed high-throughput data processing service using C#/.NET Core and RabbitMQ, reducing data ingestion time from 3-4 months to 1 day and cutting operational costs by 40%
- Implemented Redis caching layer for Browse service, decreasing database load by 30% and improving API response time by 40%
- Migrated legacy ASP.NET components to React.js, improving UI performance and deployment efficiency by 40%
- Participated in full software development lifecycle including design, development, testing, and deployment phases

Associate Software Engineer, Sursa Technology

Aug 2018 - Oct 2019

- Developed RESTful APIs using .NET Core with Identity Server authentication and Entity Framework for user management software
- Implemented Test-Driven Development practices using xUnit to ensure code reliability and maintainability
- Collaborated with senior developers in team environment, participating in design reviews and technical decision-making

SKILLS

Programming Languages: C#, .NET Core, JavaScript, Python, SQL, C++ (Academic/Project Experience)

AI/ML: LangChain, OpenAI API, Prompt Engineering, TensorFlow, Scikit-learn, Hugging Face, NLP

Technologies: Node.js, Fast API, MongoDB, MS SQL Server, MySQL, Redis, Docker, AWS S3, Agile, Linux

System Design: Performance Optimization, Distributed Systems, Message Queuing (RabbitMQ), Caching Strategies

EDUCATION

Master of Science, Computer Science, Hood College

Aug 2024 – Dec 2025 (Expected)

- GPA: 4.0/4.0, Data Science Focus
- Relevant Coursework: Artificial Intelligence, Data Mining, Data Science, Algorithms Analysis
- Graduate Assistant – IT Apps Team and Founding Member of Hood College Coding Club (Data Experts)

Bachelor of Science, Computer Science & IT, Tribhuvan University

Aug 2014 – Nov 2018

- Relevant Coursework: Intro to C, OOP, Database Management System, Data Structure, C++, Advanced Java

PROJECTS

Founding Engineer, Tell Me More

2025-Present

- Built an AI platform on FastAPI using LangChain and Prompt Engineering which helps to compare different AI Models
- Using the responses from LLM models and re training them to better optimize them

Backend Engineer/Product Owner, Certification Helper App (<https://github.com/shayar/Dumps-BE>)

2024-Present

- Built full-stack web application using CQRS pattern and Entity Framework Core on .NET Core, React.js, PostgreSQL
- Led the team as Product Owner and Lead Engineer, managing project roadmaps and technical architecture decisions

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)

Jan 2023
